

4. During scrutiny it was observed that 20 Gram Panchayat locations have been preferred by single applicant. As per the eligibility criteria stipulated by DeitY in the Advertisement Template, the applicant must be a permanent resident of the Gram Panchayat where he/she intends to set up the CSC. However, the Committee has decided to consider the applications submitted by the candidates who are not residents of Gram Panchayat where he/she intends to set up CSCs by relaxing the above said conditions based on the Guidelines stipulated in the "Implementation Guidelines for the Project "CSC 2.0 - A Way Forward" as detailed below:

*"The State/UT would have the flexibility of selecting the VLEs for setting up of CSC Network at the Gram Panchayat level under various combinations as suitable to the prevailing conditions."*

5. Accordingly, equal preference has been given to all the applicants irrespective of their residential status. Further, most of the applicants have not produced Domicile Certificates due to non availability of sufficient time. However, they were also considered for scrutiny and personal interview.

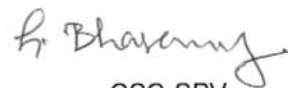

6. Each applicant was screened by the Committee Members and selection has been made based on their performance in the personal interview. The selected list of the Village Level Entrepreneurs for setting up of CSCs in the Gram Panchayat locations is enclosed as Annexure. The selected applicants may be allotted the GP locations subject to production of latest Domicile Certificate obtained from the competent authority. Further the selection shall be provisional subject to their ability to establish CSC within one month, failing which the allotment will be cancelled and no requests, thereto shall be considered.
